

Why Not Fly with Ryanair?

Ryanair is one of Europe's most popular low-cost airlines known for offering extremely cheap fares across a wide range of destinations. However, while the low prices can be appealing, there are several reasons why some travelers choose not to fly with Ryanair.

One of the most common concerns is the additional fees. Although the base ticket price may seem very low, passengers are often charged extra for services such as seat selection, priority boarding, and even printing boarding passes at the airport. These added costs can quickly increase the overall price of the trip.

Another issue is the strict policies. Ryanair is known for its firm rules regarding check-in times and boarding procedures. Even small mistakes such as arriving late to check-in or exceeding baggage limits can result in significant penalties. This can make the travel experience stressful, especially for first-time flyers.

Customer service is also a frequent complaint. Many passengers report difficulty in reaching a real person for support and resolving issues like refunds or flight changes. While Ryanair does offer online support options, they may not always be as responsive as travelers expect.

Comfort is another factor to consider. As a budget airline, Ryanair keeps costs low by offering basic seating with limited legroom and no complimentary food or drinks. For short flights, this may not be a major issue, but for longer journeys, it can affect overall comfort. Lastly, Ryanair often uses secondary airports that are located
